Business Unit(s) included in this report: **MBA Program - Business Administration Division**

Academic Period Covered: **2014-2018**

Date Submitted: **11/10/2018**

PROGRAM	INDICATOR	RESULT
MBA Program	Graduation Rate	71% (17/24)

Indicators Used

INDICATOR	DESCRIPTION AND HOW IT WAS CALCULATED
Four year graduation rate	The MBA program is a part-time program that was designed to have a flexible start and completion schedule. It is not based on a cohort. Students can start the program at 6 different dates throughout the full calendar year. In addition, the design and scheduling of courses permits students considerable control as to when they complete all requirements. The four year graduation rate was calculated using the number of students who started taking classes in the 2014-2015 academic year which includes the Fall, Spring and Summer (24 students). 17 of those students completed their degree by August 31, 2018.
