Management Major	Graduation Rate	43%
Financial Management concentration	Graduation Rate	100%
International Management concentration	Graduation Rate	100%
Marketing Management concentration	Graduation Rate	33%

**Indicators Used**

<b>INDICATOR</b>	<b>DESCRIPTION AND HOW IT WAS CALCULATED</b>
Five year graduation rate	The cohort used was the fall 2014 first-time full-time freshmen. Students included in the original cohort are those enrolled in any of the majors under Business Division (even if they later transferred out of the division), and also those who didn't initially enrolled in the division but later switch majors into the division (based on their major in fall 2016). The five year graduation rate was calculated using the original cohort above to see how many graduated with a Business division degree by August 31, 2019.
